

Expected Contributions

Expected contributions from GloLitter:

- Travel of International Legal Consultant to participate in the drafting workshop.
- Assist the National Legal Consultant to liaise with the IMO/FAO project team as required.
- Provide the National Legal Consultant with relevant documents to facilitate the tasks and coordination with other project activities, including:
 - GloLitter Project Document
 - National Country Assessment
 - National Action Plan
 - Draft Guidance Document prepared by the IMO International Legal Consultant
 - Draft Guidance Document prepared by the FAO International Legal Consultant under project activity 4.1.1.

Expected contributions from the beneficiary country:

- Engagement/coordination of relevant national stakeholders including project National Focal Point, National Task Force, shipping and maritime authorities, environmental authorities particularly in relation to sea-based marine plastic litter, fisheries authorities, government legal offices and drafting team.
- Organization and implementation of 2 capacity-building workshops where the International Legal Consultant, National Legal Consultant and drafting team will participate. 1 workshop will focus on drafting fisheries regulatory frameworks to implement fishing gear marking systems and 1 workshop will focus on drafting maritime and shipping regulatory frameworks to implement MARPOL Annex V and London Convention/ London Protocol. Each workshop will have two parts:
 1. Capacity building part led by the relevant agency International Consultant and National Legal Consultant, where the national drafting team will be trained on drafting the relevant instruments/conventions.
 2. Actual drafting of the relevant national amendments/new laws.
- Organization and implementation of a national stakeholder consultation to present the draft regulations on fishing gear marking.
- Ensure implementation of agreed road-map (see FAO TORs task 2.e) to approve and validate the drafted regulations/amendments.
